Law Enforcement Digital Voice Recorder

PUMA II Digital Voice Recorders

This unit was built upon the recommendations of Law Enforcement Agencies with experience utilizing digital technology. PUMA II is lightweight, easy to operate, durable, and provides crystal clear recordings of interviews, contacts, and other official reports.

Designed for Police Officers

With One-Button recording, it allows the officer to easily activate the recorder without diverting focus from the situation at hand.

Secure and Non Editable

PUMA II has no editing modes such as append, overwrite, or insert in order to protect the integrity of the original recording.

Superior Sound and Longer Recording Time

The new audio format (WMA) and recording modes of the PUMA II provide greater sound quality of recordings with nearly 67 hours of continuous record time.

Custom Designed Police Holster

The PUMA Police Holster made from KYDEX is available in basket weave or smooth leather

PUMA Basic Management Software

PUMA announces a new version of its already popular complete file management system for law enforcement delivered with each PUMA recorder.

PUMA Software Management Software is the only file management software for audio recordings designed for law enforcement available today.

The Most Important Tool an Officer can carry

Thousands of PUMA Digital Recorders are used today in law enforcement agencies all over the world.
